International Students

Welcome to Lakes Entrance Secondary College

Lakes Entrance Secondary College welcomes international students and values the diversity, experiences and perspectives they bring to our College community.

Located in the beautiful coastal town of Lakes Entrance in East Gippsland, our College offers international students the opportunity to experience a high-quality Victorian education in a supportive regional setting.

As a smaller secondary college, we are able to provide individualised support and learning opportunities based on students' needs and interests. Student wellbeing is an important part of our approach, with our College committed to ensuring students feel safe, welcomed, respected and valued.

Studying in Victoria

Victorian government schools provide international students with high-quality education, pathways to further study and opportunities to experience life and learning in Victoria.

Prospective international students and their families can find information about studying and living in Victoria, Victorian government schools and the International Student Program at Study Victoria

Courses and Year Levels

Lakes Entrance Secondary College provides secondary education for students in Years 7 to 12, offering a comprehensive curriculum across all year levels

The College provides a range of academic and vocational learning opportunities, including senior secondary and VET pathways, along with strong programs in areas such as sport and music.

Prospective students and families can learn more about our curriculum and learning programs on our Curriculum pages.

Learning at Lakes Entrance Secondary College

At Lakes Entrance Secondary College, we recognise that every student has different strengths, interests and learning needs.

Our smaller College environment enables us to provide individual programs and tailored learning opportunities, with students, families, teachers, year-level coordinators and careers staff working together to support students' learning and future pathways

Students also have opportunities to participate in sporting, leadership and extracurricular activities as part of College life.

Our Facilities

International students have access to the College's extensive learning and recreational facilities.

Our facilities include modern classroom technology, a fully equipped library, laptop program, gymnasium, indoor and outdoor sporting courts, a full-sized football oval, soccer pitch, cricket nets and extensive landscaped grounds.

The College library also provides study and learning spaces, computer access and resources for students and is available before and after school and during lunchtimes.

Student Support and Wellbeing

We understand that a student's wellbeing is fundamental to their educational progress and success.

Lakes Entrance Secondary College provides a range of supports for students and families. Our existing student support services include wellbeing support, counselling and connections with external services, along with access to College-based wellbeing staff.

Our International Student Coordinator is also available to support international students and provide a point of contact for students and their families.

Entry Requirements

Entry requirements for international students vary depending on the student's age, proposed year level, visa, intended length of study and application type.

Prospective international students and their families should refer to the Victorian Department of Education's **Study Victoria** website for current eligibility, entry and application requirements.

View International Student application information

How to Apply

Applications for international students wishing to study at a Victorian government school are managed through the Victorian Department of Education.

Different application pathways are available depending on a student's circumstances, visa and intended length of study.

For current information about application types, eligibility, required documentation and the application process, visit:

How to apply through Study Victoria

Fees and Costs

International student tuition fees and associated charges are determined by the Victorian Department of Education.

As fees and charges may change, prospective students and families should refer to **Study Victoria** for current information regarding International Student Program fees and costs.

Living and Studying in Lakes Entrance

Lakes Entrance Secondary College is located in Lakes Entrance in the East Gippsland region of Victoria.

Lakes Entrance offers a unique regional experience, surrounded by the ocean, lakes and forest. The local area provides opportunities for outdoor and recreational activities, while the town's economy and community have strong connections with tourism, fishing, agriculture, services and trades.

International students studying at the College have the opportunity to become part of both our school and broader local community.

Accommodation and Welfare

Accommodation and welfare requirements for international students vary according to the student's age, visa, application type and individual circumstances.

Prospective students and their families should refer to **Study Victoria** for current information about accommodation, welfare and homestay requirements for international students.
